Report of Firewards

The firewards have to report that during the fiscal year ending Jan. 31, 1935, there were three signal alarms for fire and numerous still alarms for chimney fires. The fire of July 6th which destroyed a barn on Mrs. Anise Fortin's property caused a loss of about \$150.

Since the above report was written the town has sustained a very serious fire loss by the partial burning of the Town House building Feb. 7th. About 8:30 p. m., on that day fire was discovered in a closet near the men's room. Firemen responded to the alarm with extinguishers; lines of hose were laid and for a time the fire was apparently under control. We believe, however, that it had been burning in the attic for some time and finally burst through the top of the building, destroying the roof and all the upper interior down to the second floor. The lower part was badly damaged by water. The loss is estimated at \$35,000. Aid was summoned from the Fitchburg, New Ipswich and Wilton Fire departments, each sending a booster pump, rendering valuable assistance in confining the fire to the Town building and protecting adjoining property. We tender to those Departments our sincere thanks.

Report of Cemetery Trustees

The cemetery trustees submit the following report:

We have attempted to keep the perpetual care lots in good condition. Grading, filling in, raking and mowing have been done at different times. On Memorial Day flowers were placed on all perpetual care lots.

As in previous years leaves were raked from the lots in the spring and walks cleared throughout the entire cemetery. It was found necessary to renew the lead pipe from the spring to the basin in the old cemetery.

The new cemetery has been much improved this year by the addition of attractive shrubs given by Mr. and Mrs. Charles F. Blake of Temple and planted under the direction of the Garden Club committee of the Greenville Woman's Club.

Auditors' Report

We have examined the accounts of the following town officers: Selectmen, Town Treasurer, Water Commissioners, Fire Wards, Cemetery Trustees, Library Trustees, Town Clerk and Tax Collector for the year ending January 31, 1935, and find them correctly cast and properly vouched.

We find that the Road Agent's bills rendered to the Selectmen correspond with the orders issued to him, and that each employee of this department signs the payroll for his wages.

As required by the State Tax Commission, we examined the list of unpaid taxes and found this list correct.

Report of School Board

To the Citizens of Greenville:

We herewith submit the following report:

Greenville received a certain amount of federal money for corrective work among school children, embracing tonsil operations, dental work and provision of glasses. Federal money is also furnishing milk each day, for undernourished children.

For the first time a prize speaking contest was conducted by the Americanization committee of the American Legion Auxiliary. The seventh and eighth grades participated and Greenville was very proud to have two of the three prizes awarded to Greenville pupils, Marjanet Sawyer, seventh grade and J. Willard Buttrick, Jr., eighth grade.

This fall the pupils in Mrs. Bennett's room presented an excellent play and musical act. The money realized will be used to defray graduation expenses and for a class trip. At the Memorial exercises the pupils in the first six grades furnished an unusually impressive and pleasing program.

Thirty-one pupils are attending High School, only two of whom will graduate in June. There will be an additional number from the graduating classes, necessitating a larger appropriation for high school tuitions.

Owing to the small number of children attending school it has been deemed advisable to close one of the rooms next fall and employ only two teachers. We regret that this seems necessary.

We desire to express our appreciation to Mrs. Frances Upham, our librarian, for her interest in the school children; to Miss Myrtle Marsh for her kindness in writing the graduates names on the diplomas each year; and to Mr. Alfred Williams for his helpful co-operation in the manual training work.

The meeting of the school district will be held at the school building.

Your Board has been notified by the Milford School Board that next year the tuition at Milford High School will be \$80.00 per pupil. This amount, being in excess of the state average for high school tuition, requires authorization from the District to enable the School Board to make a contract with the School Board of Milford to cover tuition of Greenville students attending Milford High School. Therefore, an article asking for authorization to make such a contract has been inserted in the School Warrant.

Report of Superintendent of Schools

To the School Board and Citizens of Greenville:

I respectfully submit my twelfth annual report as your Superintendent of Schools.

The State Legislature of 1933 enacted a provision requiring the State Board of Education to reduce the number of supervisory unions in the state from the sixty existing at that time to fifty-five in 1933-1934 and to fifty for 1934-1935. This second reduction resulted in the addition of Francestown and Greenfield to the six towns which formerly comprised Supervisory Union No. 63: Wilton, Greenville, Lyndeboro, Mason, New Ipswich and Temple. The new towns add approximately one hundred children and four teachers but the closing of two rural schools in Wilton leaves a net increase of only two teachers.

The Superintendent's time is not apportioned among the towns in the supervisory union by any fixed rule, but rather he is expected to give attention to each school according to its needs. It is too early to predict what the ultimate results of the change in this Union may be, but it is apparent now that each school will receive less attention than formerly, not only because there are more schools to be visited in a given time, but also because the increase in administrative duties necessarily reduces time available for visiting.

We are using standardized tests:

- A. To compare progress in the various schools with fair standards of accomplishment.
- B. To discover general weaknesses where they may exist in any school and point the way to improving teaching at such weak points.
- C. To assist the teachers in discovering the particular weaknesses and needs of individual children and help direct their instruction throughout the year.

The tests used include the Stanford Achievement Test which covers nearly all of the subjects taught in Grades 3-8. This test is given every year in October and is repeated in May for children whose October scores in the test were low. In Grades 1-3 we use the Gray Oral Reading Check Tests at intervals of five or six weeks throughout the year. We have begun this year to use the Metropolitan Primary Reading Test also in Grades 1-3 and Metropolitan Primary Arithmetic Test in Grades 2 and 3. These are given in

January. All tests are given by the teachers who follow very exact and minute directions in order that the tests may be given under uniform conditions in every school.

The form of report card was revised this year in order to provide for systematic reporting of each pupil's scores in the standardized tests, so as to give to parents a more complete picture of their children's success in school.

The annual medical inspection was made in October by Dr. Pease and Dr. Mason, in both the Public and Parochial Schools. They report as follows:

	Public	Parochial
Number of pupils examined	58	152
Defective vision	3	3
Defective teeth	20	68
Diseased tonsils	5	20
Adenoids	0	1
Enlarged glands	0	4
Pediculosis	2	10
Unvaccinated	0	5

The budget estimates for the school year 1935-1936 are based upon the conclusion of the school board that the public school enrollment next year will be too small to justify the continuance of three teachers. Apparently there will be approximately fifty pupils, with very small numbers in the second and third grades especially. Consequently, the salary of one teacher has been taken from last year's estimate. There is also a small reduction in the estimated cost of transportation, because the actual cost this year is lower than was estimated. High school tuition shows a very large prospective increase, for the reason that of the 31 pupils attending various high schools now only two are in the graduating class; and there are eight public school and perhaps five parochial school eighth grade pupils who will wish to enter high school in September. Our best estimate is that \$3,000.00 will be required for this purpose.

Respectfully,

VERNON S. AMES

Superintendent

Wilton, N. H., February 15, 1935.
